**AFFIDAVIT AND STATEMENT OF PROBABLE CAUSE**

I, Raymond Shepard, being duly sworn, hereby depose and state as follows:

1. I am a United States Postal Inspector and have held this position since have been since July 2014. I completed a twelve-week basic training course in Potomac, Maryland, which included training in the investigation of narcotics trafficking via the United States (U.S.) Mail. I am currently assigned to the Phoenix Division Prohibited Mailings Narcotics Team (PMNT) in Arizona, which is responsible for investigating narcotics violations involving the United States Mails. Part of my training as a Postal Inspector included narcotics trafficking investigative techniques and the training in the identification and detection of controlled substances being transported in the U.S. Mail.

2. I have assisted on numerous narcotics investigations of individuals for violations of Title 21, United States Code, Sections 841(a)(1) (Possession with Intent to Distribute a Controlled Substance), 843(b) (Use of a Communication Facility to Facilitate the Distribution of a Controlled Substance), 846 (Conspiracy to Possess with Intent to Distribute a Controlled Substance), and Title 18, United States Code, Section 1956(h) (Conspiracy to Commit Money Laundering). The facts and information contained in this affidavit are based on my personal knowledge, as well as that of other Postal Inspectors and law enforcement officers involved in this investigation, as described below. Because this Affidavit is being submitted for the limited purpose of establishing probable cause for the requested warrant, your Affiant has not set forth all of the relevant facts known to law enforcement officers.

3. This Affidavit is made in support of an application for a search warrant for one United States Postal Service (USPS) parcel (the “**SUBJECT PARCEL 1, SUBJECT PARCEL 2, and SUBJECT PARCEL 3**”). The **SUBJECT PARCELS** are believed to contain controlled substances or proceeds from the sale of controlled substances.

4. **SUBJECT PARCEL 1** is further described as follows:

One USPS Priority Mail parcel bearing USPS tracking number 9505 5119 4112 3105 9683 95, addressed to “Sheryl Smith 5200 Chet Dr Holiday, FL. 34652” with a return address of “Joe Johnson 500 N Metro Blvd. Chandler, AZ 85225.” It is a white Priority Mail parcel measuring 12.25” X 12” X 6”; weighing approximately eight pounds 14 ounces; postmarked April 15, 2023; and bearing \$22.80 in postage.

5. **SUBJECT PARCEL 2** is further described as follows:

One USPS Priority Mail parcel bearing USPS tracking number 9505 5119 4112 3105 9684 18, addressed to “Freddie Jackson 972 Mango Loop Tarpon Springs, FL 34689” with a return address of “Joe Johnson 500 N Metro Blvd. Chandler, AZ 85225.” It is a white Priority Mail parcel measuring 12” X 3.5” X 14.125”; weighing approximately six pounds nine ounces; postmarked April 15, 2023; and bearing \$17.10 in postage.

6. **SUBJECT PARCEL 3** is further described as follows:

One USPS Priority Mail parcel bearing USPS tracking number 9505 5119 4112 3105 9684 32, addressed to “Freddie Jackson 972 Mango Loop Tarpon Springs, FL 34689” with a return address of “Joe Johnson 500 N Metro Blvd.

Chandler, AZ 85225.” It is a white Priority Mail parcel measuring 12” X 3.5” X 14.125”; weighing approximately six pounds nine ounces; postmarked April 15, 2023; and bearing \$17.10 in postage.

### **BACKGROUND**

7. From my training and experience, as well as the training and experience of other Postal Inspectors on the PMNT, I am aware that the USPS mail system is frequently used to transport controlled substances and proceeds from the sale of controlled substances to areas throughout the United States. I also know that drug traffickers prefer delivery services such as Express Mail and Priority Mail because of their reliability and the ability to track the article’s progress to the intended delivery point. When a drug trafficker learns that a mailed article has not arrived as scheduled, he/she often becomes suspicious of any delayed attempt to deliver the item.

8. Based on my training and experience regarding Express Mail operations, I am aware that the Express Mail service was designed primarily to fit the needs of businesses by providing overnight delivery for time-sensitive materials. Moreover, based on my training and experience, I am aware that business mailings often: (a) contain typewritten labels; (b) are addressed to and/or from a business; (c) are contained within flat cardboard mailers; and (d) weigh less than eight ounces. In addition, corporate charge accounts were developed by the United States Postal Service to avoid time-consuming cash payments by businesses for business mailings.

9. Based on my training and experience regarding Priority Mail operations, I am aware that the Priority Mail service was created as a less expensive alternative to

Express Mail overnight delivery, but designed to provide quicker, more reliable service than standard First-Class Mail. Whereas a customer mailing an article via Express Mail expects next-day service, a customer who mails an article via Priority Mail can expect two to three-day delivery service. The USPS provides a tracking service though a USPS tracking number, which allows the customer to track the parcel and confirm delivery.

10. Additionally, I have learned that most Priority Mail mailings are business mailings. Priority Mail is a significantly less expensive method of mailing than Express Mail, particularly when next-day service is not required. I also know that the characteristics of Priority Mail business mailings are similar to Express Mail business mailings. Priority Mail articles tend to be smaller, lighter mailings than traditional mailings, and on average, weigh less than two pounds. Examples of typical business mailings conducted via Priority Mail include books, clothing, pharmaceuticals, and consumer goods purchased from online retailers.

11. From my training, personal experience, and the collective experiences related to me by other Postal Inspectors on the PMNT who specialize in investigations relating to the mailing of controlled substances and proceeds from the sale of controlled substances, I am aware that the State of Arizona is a source location for controlled substances based on its proximity to the United States-Mexico border. As such, controlled substances are frequently transported from Arizona via USPS, and proceeds from the sale of controlled substances are frequently returned to Arizona via USPS.

12. Based on my training and experience regarding the use of Express Mail and Priority Mail to transport controlled substances and the proceeds from the sale of controlled

substances, I am aware these parcels usually contain some or all of the following characteristics:

- a. The parcel contains a label with handwritten address information and is addressed from one individual to another individual;
- b. The handwritten label on the parcel does not contain a business account number, thereby indicating that the sender likely paid cash;
- c. The parcel is heavier than the typical mailing, often weighing more than eight ounces for Express Mail, and two pounds for Priority Mail; and
- d. The parcel either: (a) was destined for an area known to be a frequent destination point for controlled substances, having been mailed from an area known to be a source area for controlled substances; or (b) originated from an area known to be a frequent origination point for proceeds from the sale of controlled substances, having been mailed to an area known to be a destination area for proceeds from the sale of controlled substances.

13. Express Mail and Priority Mail parcels found to meet some or all of the characteristics described above are often scrutinized by Postal Inspectors through address verifications and an examination by a trained narcotics detecting canine.

**RELEVANT FACTS PERTAINING TO THE SUBJECT PARCEL**

14. On or about April 15, 2023, the United States Postal Inspection Service (“USPIS”) identified three suspicious parcels, **SUBJECT PARCEL 1** mailed from Phoenix, Arizona, destined for Holiday, Florida. **SUBJECT PARCEL 2** and **3** mailed from Phoenix, Arizona, destined for Tarpon Springs, Florida.

15. On April 15, 2023, members of USPIS conducted a physical examination of the **SUBJECT PARCELS** and observed that they met some of the characteristics listed in Paragraph 12 above. First, the **SUBJECT PARCELS** bore handwritten address information. **SUBJECT PARCEL 1** weighed approximately eight pounds and 14 ounces. **SUBJECT PARCEL 2** and **SUBJECT PARCEL 3** weighed approximately six pounds nine ounces. The **SUBJECT PARCELS** postage was paid for in cash. Also, the **SUBJECT PARCELS** were mailed from an address in Arizona to an address in Florida.

16. Based on my training, experience, and the collective experiences related to me by other Postal Inspectors on the PMNT who specialize in investigations relating to the mailing of controlled substances and proceeds from the sale of controlled substances, I am aware that Arizona is frequently a source location for controlled substances that are mailed to Florida, and that proceeds from the sale of controlled substances are frequently returned to Arizona from Florida via USPS.

17. Members of the USPIS conducted a database query regarding the names and addresses listed on the **SUBJECT PARCELS** in Consolidated Lead Evaluation and Reporting (CLEAR), a law enforcement database accessible to me. CLEAR associates addresses and telephone numbers to individuals and business entities. The CLEAR database is created from credit reports, law enforcement reports, utility records, and other public records.

18. Through the CLEAR database query, investigators learned that the delivery address for the **SUBJECT PARCEL 1**, 5200 Chet Dr, Holiday, FL 34652, is an existing, deliverable address. However, the purported recipient, Sheryl Smith, is not associated with

the delivery address for **SUBJECT PARCEL 1**. Investigators also learned that the return address for all three **SUBJECT PARCELS**, 500 N. Metro Blvd., Chandler, AZ 85225, is an existing, deliverable address; however, the purported sender, Joe Johnson, is not associated with the return address information appearing on the **SUBJECT PARCELS**.

19. Through the CLEAR database query, investigators learned that the delivery address for the **SUBJECT PARCEL 2** and **3**, 972 Mango Loop, Tarpon Springs, FL 34689, is an existing, deliverable address. However, the purported recipient, Freddie Jackson, is not associated with the delivery address for **SUBJECT PARCEL 2** and **3**.

20. From my training, personal experience, and the collective experiences related to me by other Postal Inspectors on the PMNT who specialize in investigations relating to the mailing of controlled substances, it is common for drug traffickers to use purported names not associated with a particular address and utilize fictitious names and addresses to evade detection by law enforcement.

#### **CANINE EXAMINATION OF THE SUBJECT PARCEL**

21. On April 15, 2023, City of Mesa Police Department (MPD) Detective/Canine Handler Dawn Haynes and her narcotics-detecting canine "Nicole" inspected **SUBJECT PARCEL 1** at the Phoenix Osborn Post Office located in Phoenix, AZ. At approximately 3:18 PM, Detective Haynes advised that "Nicole" gave a positive alert to the **SUBJECT PARCEL 1** by lying down next to the **SUBJECT PARCEL 1**. At approximately 3:19 PM, Detective Haynes advised that "Nicole" gave a positive alert to **SUBJECT PARCEL 2** by lying down next to **SUBJECT PARCEL 2**. At approximately 3:18 PM, Detective Haynes advised that "Nicole" gave a positive alert to **SUBJECT PARCEL 3** by lying

down next to **SUBJECT PARCEL 3**.

22. Detective Haynes described that, when “Nicole” lays down next to an item as she did, “Nicole” is exhibiting a “passive” alert that “Nicole” has been trained to give. Detective Haynes stated the “passive” alert given by “Nicole” indicates the presence within the **SUBJECT PARCELS** of heroin, cocaine, marijuana, and/or methamphetamine, or currency, notes, documents, or evidence bearing the presence of the odors of heroin, cocaine, marijuana, and/or methamphetamine.

23. Detective Haynes advised that she is an MPD Detective currently assigned to the handling and care of MPD narcotics-detecting canine “Nicole.” Detective Haynes has been a law enforcement officer with MPD for 22 years. “Nicole” is a six-year-old Belgian Malinois who has been working drugs/narcotics detection for the MPD since February 2020. “Nicole” and Detective Haynes currently hold a National Certification in drugs/narcotics detection by the National Police Canine Association (NPCA). This is a yearly certification and “Nicole” and Detective Haynes were last certified in March 2023. Detective Haynes’ certifications also include the completion of a canine certification course presented by Alpha canine training facility. “Nicole” is trained to detect the odors of cocaine, marijuana, heroin, methamphetamine, and their derivatives. Detective Haynes advised that, since “Nicole” began working at the MPD, “Nicole” has had over 100 successful finds (both training finds and finds that have contributed to active investigations) of controlled substances or proceeds from the sales of controlled substances.

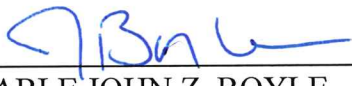

### **CONCLUSION**

24. Based on these facts, there is probable cause to believe the **SUBJECT PARCELS** described above contains controlled substances or proceeds from the sale of controlled substances, constituting evidence of violations of Title 21, United States Code, Sections 841(a)(1) (Possession with Intent to Distribute a Controlled Substance), 843(b) (Use of a Communication Facility to Facilitate the Distribution of a Controlled Substance), and 846 (Conspiracy to Possess with Intent to Distribute a Controlled Substance).
